

**“Quality is not an act,
it is a habit.”**

-Aristotle

INDUSTRIAL SOLUTION IS THE KEY TO THE FUTURE

ABOUT US

Tapama is a brand name, pioneer in manufacturing of technical textiles & filtration products. We are one of the largest fabricators and suppliers of end-to-end products. Our brand name is synonymous with quality and trust over 30+ years. Our company pillars have always been the long lasting relationships we share with our clients, employees and our vendors. Being a family owned business, our value system boasts of working as a team to achieve results. We provide a fully, stand-alone, integrated portfolio of fabric design, weaving, coating and fabrication.

PRODUCT QUALITY

At Tapama, we are passionate about our products, Filtration products are considered as lowest (limb Level) in the food chain in organisations but play a vital role in the industries. It can help in identifying those low hanging fruits and in reducing the operational or maintenance cost which in-turn helps in great savings as a whole. We have been advancing ourselves by using the latest technology and systems to cater to our client's requirement. Our products, our quality control mechanism, state-of-the-art facilities and full range of technical expertise, provides the assurance of maximum product, minimum wastage.

REACH

Our vast experience has been instrumental in bridging the gap between the old and the new processes to bring the best on the client's table. Our global reach and worldwide presence brings us together with a diversified customer base from different geographies. This enables us to build a strong network and maintain international quality standards in our production.

INDUSTRIES WE SERVE

We cater to most industries which require filtration such as Edible Oil industry, Drugs & Pharmaceuticals, Chemicals, Ceramic, Paint, Steel, Shot Blasting, Printing, Processing House, Agro & Pesticides, Food & Beverage Industry, Mining & Refining, Power, Wood Industry & other such industries where filtration plays a vital role.

TRUST

With offices in Mumbai and Ahmedabad, We have efficiently bifurcated our resources in order to service our clients and channel partners with ease. Our clients have shown us unconditional support and are with us since inception only because of our customer service, easy-to-approach protocol and strong technical back end support.

INDUSTRIES SERVED

Edible Oil

Food & Beverages

THE TAPAMA CAPABILITIES

The Tapama group of companies integrates manufacturing capabilities across a full range of technical textiles expertise, offering a stand-alone or fully integrated portfolio of fabric design, weaving, finishing, coating and fabrication.

FILTER FABRICS

Woven

- Polyester Spun & Multifilament
- Polypropylene Spun & Multifilament
- Monofilament: Polyester, Polypropylene, Nylon, PBT, HDPE
- Nylon
- Glassfibre

Weave

- Plain, Twill, Broken Twill, Satin, Flat Weave, Chain Weave, Oxford Weave
- Bespoke Weave Patterns

Non-Woven

- Polyester
- Polypropylene
- Meta Aramid
- Polypropylene Sulphide (PPS)
- Homo Polymer Acrylic Fabrics
- P-84
- Hybrid

Antistatic Fabrics

- Woven Fabrics: Polypropylene (Multifilament & Spun), Polyester (Multifilament & Spun)
- Non-Woven: PET (Single side & Cross lines)
- Epitropic Fabrics

Geo-Textile (up to 250 gsm)

- Woven
- Nonwoven

Finishing

- Moisture/ Water repellency
- PTFE coating
- Surface Calendaring
- Singeing
- Fire Retardant
- Heat Set

Fabricate

- FBD Bags (All Types); Bonnet Bags; Centrifuge Bags
- Dust Collector Bags; Pulsejet & Reverse Pulsejet Bags
- Polish Filter Bags
- Filter Panels
- Membrane Cloth (Panel) for Hydrogenation
- Candle Filter Bags
- Sparkler Filter Pads & Papers & many more..

WHY OUR CUSTOMERS CHOOSE TAPAMA

Here are the top 10 reasons why our exiting customers rely on TAPAMA as a partner for their technical textiles requirements.

Fabric performance

We're continuously developing ways to enhance the technical characteristics of our fabrics to make them better, lighter, stronger, more durable and engineering extra value for you.

High quality

We operate to the highest quality standards giving you peace of mind that our fabrics are manufactured to consistently meet your exact technical specification.

Technical knoweledge

We'll act as a valuable resource for your business. Our technical experience and specialist knowledge of yarns, fabric, weaving and coating process means we can take the hard work away by developing innovative fabric solutions.

Specialist

We specialize at what we do. We focus on our customers' needs for fabric that perform in demanding applications and strive to deliver a 'best in class' approach in the field of technical textiles.

Integrated approach

Our integrated approach of fabric design, weaving, finishing, coating and fabrication means we can fulfill your requirements for technical textiles more quickly, more efficiently and in a more cost – effective way.

Bespoke

We'll produce unique fabrics with characteristics that perform in the exact way you need for the most cost-effective solution possible.

Niche

We like a challenge- the more complex & unusual the application, the better. We take up Challenge we ease out work that other fabric suppliers may find problematic.

History

With over 30+ yrs of experience in technical textiles manufacturing we've built a business with a solid foundation meeting the needs of our customers. We remain customer-focused and will continue to invest to offer the best level of service and technical expertise possible for our customers.

Flexible

We'll jointly work with you as an extension of your own business, ability to plan, manufacturing and deliver in line with your needs, eventually saving you time and money.

Short run

We'll jointly work with you as a partner to supply your technical textiles needs. We dedicate resources for short-run and development work that will help you to cost-effectively satisfy your own customer better, more quickly and more profitably.
